AUTONXT AUTOMATION PVT LTD

Activity of Company

AutoNxt has developed an autonomous electric tractor for agricultural use. The tractor is designed to operate without a human driver, using sensors and advanced algorithms to navigate fields and perform tasks such as ploughing, seeding, and harvesting.

. Electric tractors produce no emissions, which can help reduce air pollution and greenhouse gas emissions. Additionally, electric tractors can be more efficient and cost-effective to operate, as they require less maintenance and have lower fuel costs.
